We see by the *Avalanche* it costs something to indulge in the luxury of a fine language in Silver City. Sallie Sander used Sheriff Jones as a target for her obscenity while he was escorting a party of ladies in a carriage to War Eagle Mountain. Sallie was brought before Judge Wickersham and fined \$50 and costs.

GEORGE AINSLIE has been re-nominated. If we had been a Democrat we would not have desired that nomination. We understand that Apostle Cannon nerved Bear Lake and Oneida up to the work of re-nominating the boy and it was so done. We propose to show the Mormon brethren that they are egregiously duped by this same Congressional Candidate before the campaign is over, and to those Democrats in Northern Idaho who desire to see Idaho Utahized we hope they will understand that Ainslie is the side-track to that camp. George cusses the brethren when he is up north, but here in the midst of the brethren he is a splendid Mormon. —[Idaho Enterprise.

## BAKER CITY NOTES.

From the *Bedrock Democrat*.

Hotels full—full—running over.

Several bad characters in the city.

The races this week will be the best ever held in the State.

Walla Walla, Union, La Grande and Boise City are well represented in the city.

Baker has grown more in population and building improvements during the past summer than any other town of Eastern Oregon.

Faro, rondo, chuckluck, high-ball poker, twenty-one, red and black, roulette and the log-game are well patronized in the city at present.

Never before in the history of the turf of Eastern Oregon has there been such a gathering together of fleet horses, both long and short distance, as are now in readiness for this week of races.

Rich silver ore has been discovered near Sparta.

Powers & Co., of Rye valley, are still mining their hydraulic claims. They will clean up for this season some \$25,000.

The new mill recently erected on the Tom Payne ledge (Hayes & Co.) near Pocahontas, is turning out large amounts of bullion daily.

The New England and Oregon Mining Co., at Rye valley, have struck it rich in the Green discovery. The vein is good sized, some of the samples assaying \$10,000 per ton.

The mining both quartz and placer throughout our country, for the past season, has been of the most satisfactory results. Without doubt, instead of diminishing, the mining industry in this section is greatly on the increase. Hardly a day passes that we do not have to chronicle new discoveries, and of the very richest class.

The first number of the Baker County *Reveille*, will be issued on the 9th inst., by M. H. Abbott & Son, in this city.

While making our reportorial rounds one evening last week, we dropped into a certain place where liquor is sold to see what was transpiring, and if, perchance, to "catch" a local, and was the finder of one. Sitting at a table, in what the proprietors call a club room, were to young men of the city playing poker with two heathen Chinese, and if we were not mistaken the Chinamen were getting away with the spoils.

CHAS. MAGEE

A DELEGATION of fifty gentlemen connected with the shipping interest of New York went to Governor's Island on the 27th ult. to wait on General Hancock, in order to present an address and offer co-operation and support during the coming campaign. In reply General Hancock said: "I am very highly honored by being waited upon by representatives of the various branches of the shipping interest. I am very glad to receive the address you now present me. I am much pleased at your visit, if it only be that it has shown me the details of an organization that I was not previously familiar with. I was fearful yesterday that I would not be able to meet this delegation to-day, in consequence of indisposition, and am very glad that I have been able to meet you." The General then was introduced to the gentlemen composing the delegation.

The wonderful boy violinist, d'Albert who is becoming so popular in England, is said to be, in spite of his

genius, a thorough boy, laughing and joking and up to any fun; "but the moment he comes to the piano he is like an Arabian horse with thrilling nerves and eyes dilated." Is that the way an Arabian horse comes to the piano?

YOUNG Mr. Latehoura was sitting on the porch the other night watching a 17 year old girl trying to keep awake long enough to see the morning star rise. They talked astronomically. "I wish I was a star," he said smiling at his own poetic fancy. "I would rather you were a comet," she said, dreamily. His heart beat tumultuously. "And why?" he asked tenderly, at the same time taking her unresisting little hands in his own, "and why?" he replied, imperiously. "Oh," she said with a brooding earnestness that fell upon his soul like a bare foot on a cold oil cloth, "because then you would only come around once every 1,500 years." He didn't say anything until he was half way to the front gate, when he turned around and shook his fist at the house and muttered between his teeth that "by the dads it would be a thundering sight longer than that before he came around again." But by that time the poor girl was in bed and sound asleep.—[Hawkeye.

## Scripture Practically Applied.

Many years ago when the mowing on the farm was done with a sythe, Farmer A. and his hired man were mowing together in the field. The hired man was ahead when he discovered that he was in close proximity to a large nest of hornets. He advanced as far as he thought was prudent and jumped from his swath and ran away. Farmer A. imagining that the hired man was frightened at nothing, stepped into his swath with this scriptural quotation: "The wicked flee when no man pursueth, but the righteous are bold as a lion," and mowed ahead. Two or three strokes brought him in contact with the nest, and the hornets swarmed out at a lively rate, giving him a sharp reception. The farmer ran, when it was the hired man's turn to quote scripture, which he did by the following: "The wise man foreseeth the evil and turneth aside, but fool passeth on and is punished."

FRANK W. HUGHES, leader of the Pennsylvania Greenbackers, telegraphs Weaver that his congratulations to Solon Chase, tending to insure the seven Garfield Electors in Maine, forfeited his claims to the support of the organization, and that the National Greenback men are not marketable by any leaders.

"My dear," said a sentimental maiden to her lover, "of what does these autumnal tints, this glowing baldrick of the sky, this blazing garniture of the dying year remind you?" "Pancakes," he promptly answered.

THEODORE GLANCEY, editor of the *Press*, was shot in Santa Barbara, Cal., on the 25th ult., by Clarence Gray, Republican candidate for District Attorney, the wound proving fatal.

THERE is a great rush of business in New York, and great increase of freight shipments in all directions, compared with 1879. The fall dry goods trade surpasses expectations.

He that refuseth watermelon when he hath enough is wise, but he who taketh all he can get and looketh longingly at the rind layeth the foundation of a doctor bill.

THE debt of Chicago has been reduced over a million dollars during the last year.

## Our Bodies After Death.

Within a very near approach to truth, the human family inhabiting the earth has been estimated at 1,000,000,000; the annual death is 18,000,000. Now, the weight of the animal matter of this immense body cast into the grave is no less than \$34,000 tons, and its decomposition produces 9,000,000,000 cubic feet of matter. The vegetable productions of the earth clear away from the earth the gases thus generated, and decomposing and assimilating them for their own increase. This circle of changes has been going on ever since man has become an occupier of the earth. He feeds on the lower animals and on the seeds of plants, which in due time become a part of himself. The lower animals feed upon the herbs and grasses, which in their turn become the animal; then, by its death, again pass into the atmosphere, and are ready once more to be assimilated by plants, the earth or bone substance alone remaining where it has been deposited.
